

Website Construction

A state-of-the-art website is the foundation of your organization's online presence

We build websites for:

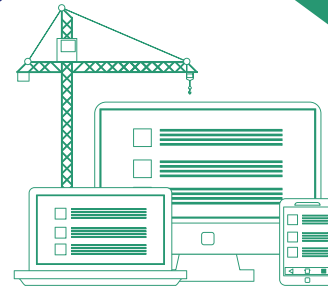

- Service Companies
- Retail Companies
- Online Retailers
- Trade Associations
- Philanthropies
- Political Campaigns
- Issue Campaigns

Web Design

- color scheme
- graphics and images
- branding
- interactivity
- text styles
- structure

Web Development

- writing code
- hosting
- domains
- wordpress installation
- emails

Step 1: Kick off consultation to identify your needs and business objectives.

Step 2: We develop the wireframe: content hierarchy, navigability, and linking strategy for client approval.

Step 3: We design layout rendering options for approval by the client.

Step 4: We make the approved design responsive to various screen sizes.

Step 5: Transition final design renderings into development using coding.

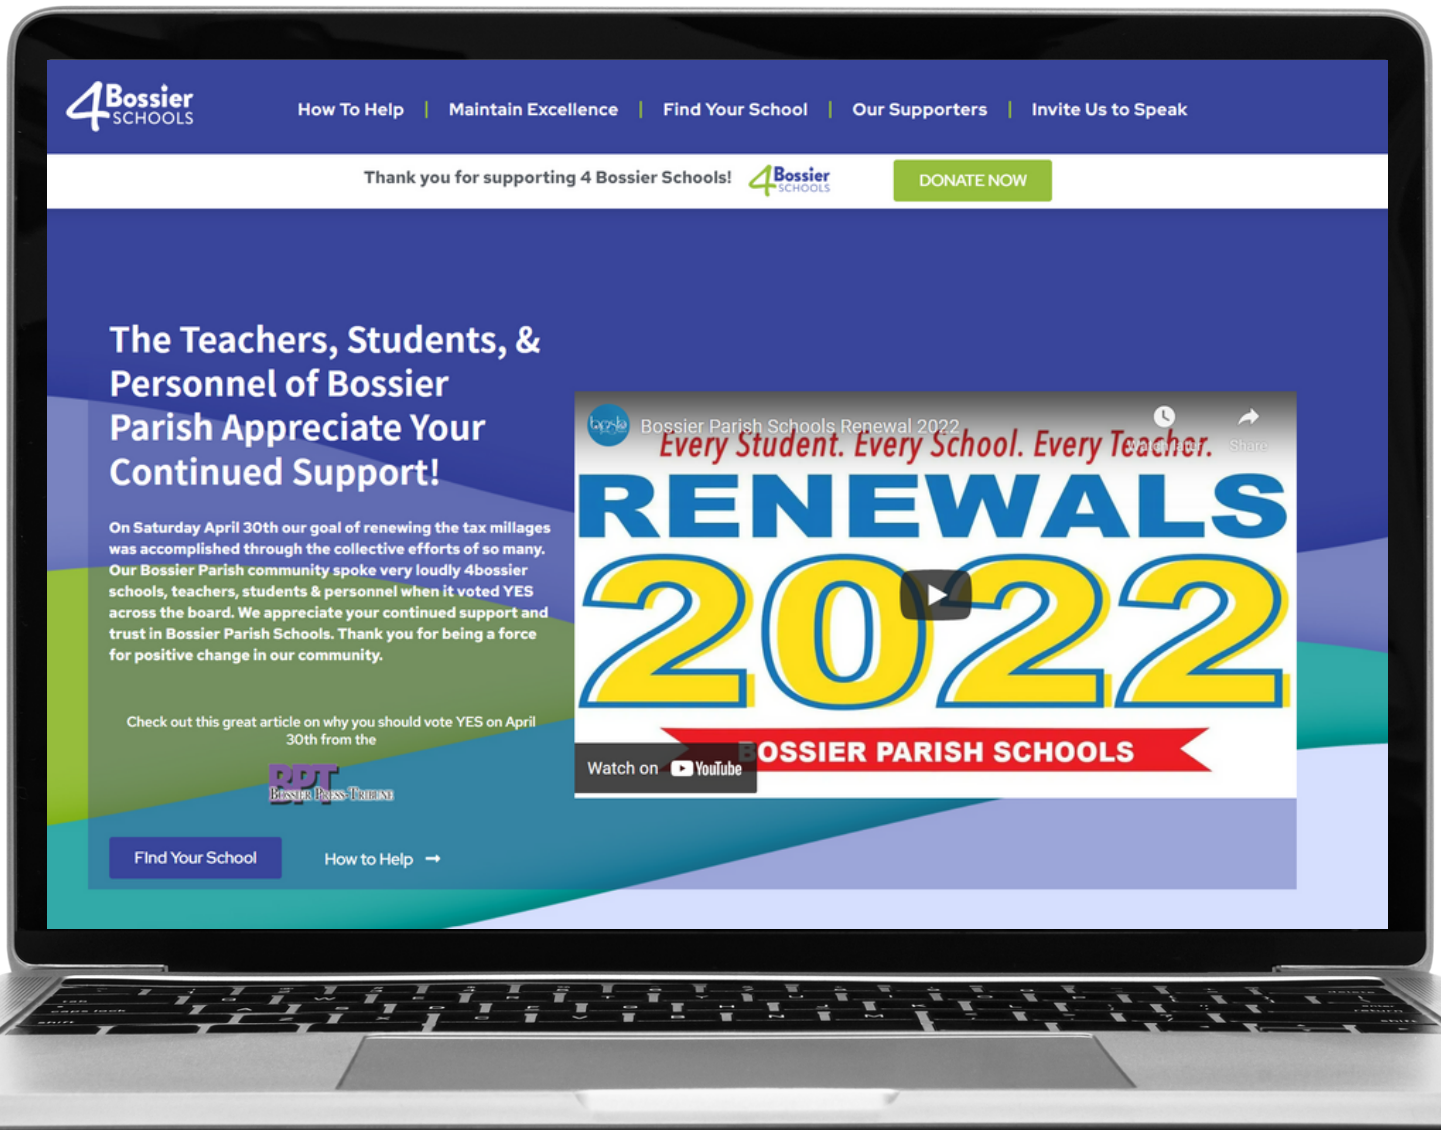

Step 6: Client walk-through and approval.
